

Land Deeds, &c. – Manuscript boxes -ST-2b & other locations

Unless otherwise indicated these are original documents which may include additional names and property information. They may be examined in person. Due to their fragility, any copies must be taken from a primary scan created by the staff. The first section is alphabetical by the first named grantor, except that the names of persons who sold original rights-of-way to the railroad (now Amtrak and Metro North) in 1847 are grouped together at the end of that section.
